

# FAAWC & COVID-19

UPDATED TUESDAY, MARCH 24TH 2020

## PLEASE READ THE FOLLOWING IMPORTANT INFORMATION FROM THE FAAWC

### NEW HOURS

MON 8AM-6PM

TUES 8AM-5PM

WED 8AM-5PM

THUR 8AM-5PM

FRI 8AM-4PM

Ohio has Issued a Stay at Home Order, which directs all Ohio persons to stay in their place of residence unless going out for essential activities like doctor's appointments, filling prescriptions, or getting groceries.

Essential services are still operating, and this includes the FAAWC! We have limited our hours (look left) and have reduced the number of in-person appointments offered to keep social distancing enforced.

### Should I Reschedule?

We are not automatically canceling any previously scheduled appointments, but we understand if you wish to reschedule for a later date and are happy to help. Please call the office at 740.363.4373 to move or cancel your appointment.

Among others, we highly recommend that diabetic patients, patients with wounds or injuries, patients receiving shockwave therapy or laser therapy, patients with foot pain, and all post-surgical patients keep their appointments. Those at highest risk for COVID-19 complications should consider our new telemedicine option in place of an in-person visit.

## NOW OFFERING VIRTUAL VISITS

The FAAWC has been approved to offer virtual visits with our providers. Medicare and some private insurances cover these visits. We also offer cash pay options for \$30, \$60, and \$100 depending on the length of the appointment.

### To use telehealth services, you must:

- Be an existing FAAWC patient
- Have a mobile phone and email address
- Call the office to schedule this type of appointment
